

VAISHNABI PANTHI

Python & Django Developer

📍 Bhopal, MP | +91 8827750878 | vaishnavipanthi99@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Python and Django Developer with hands-on experience in Django, FastAPI, and REST API development, with practical exposure to computer vision and full-stack web applications. Currently strengthening problem-solving skills through Data Structures and Algorithms.

EDUCATION B.Tech | ECE | Jai Narain College of Technology, Bhopal

2023 – 2027

CGPA: 7.67

12th | Govt HSS Uhar, MP

2023

Percentage: 72.3%

10th | Govt HSS Harganakhedi

2021

Percentage: 76%

TECHNICAL SKILLS

Languages: Python (Primary), SQL

Backend Frameworks: Django, FastAPI, Django REST Framework (DRF)

Web Technologies: HTML5, CSS3, Tailwind CSS, Bootstrap

Tools & Databases: PostgreSQL, SQLite, Github, Postman

Core Concepts: REST API Development, OOP, Data Structures & Algorithm

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability

WORK EXPERIENCE

Web Developer Intern | Nullclass (Full-Time, Remote)

Nov 2025 – Feb 2026

- Developed BookMySeat – a movie ticket booking app using Python and Django. [\[Link\]](#)
- Integrated Razorpay payment gateway and automated email confirmations for bookings.
- Implemented seat reservation logic and admin dashboard features to support booking workflows.
- Tech Stack: Python, Django, Razorpay API, PostgreSQL.

PROJECTS

Healthcare CRM & QMS (FastAPI & React) [\[Link\]](#)

Feb 2026 – Mar 2026

- Built a CRM system using FastAPI and React for logging and managing healthcare interactions.
- Designed REST APIs for data summarization and entity extraction with structured JSON responses.
- Implemented PostgreSQL to manage interaction data, reducing manual logging time by ~40%.
- Tech Stack: FastAPI, React, PostgreSQL, Python.

Clone Tracker (Python & OpenCV) [\[Link\]](#)

Sep 2025

- Developed a human movement tracking system using Python and OpenCV, achieving 90%+ detection accuracy.
- Implemented real-time motion detection to track and analyze human movement.
- Used video processing techniques to detect motion patterns from camera input.
- Tech Stack: Python, OpenCV.

CERTIFICATIONS

• **Python Programming – Saylor Academy**

Covered core Python concepts including OOP, file handling, and modules through self-paced online coursework.

• **C/C++ Programming– Sunny Institute, Bhopal**

Completed structured training in C and C++ fundamentals including pointers, memory management, and data structures.
